## WHO ANSWERS YOUR CALL?

When you dial 911 a trained Emergency Communications Officer answers. Twenty-four hours a day, seven days a week, 365 days a year, these caring and highly trained people are here to help you.

## WHAT SHOULD YOU SAY?

Slowly and clearly state the following:

1. The location of the incident.
  2. What happened.
  3. When did it happen.
  4. Is anyone injured.
  5. Who is involved.
  6. Are there any weapons involved.
  7. Is anyone intoxicated.
  8. Your name and phone number.
- You will be asked additional information that is important to the units that are responding to you.

## WHEN TO USE THE NON-EMERGENCY NUMBER

We try to keep the 911 lines open for true emergencies. Use the non-emergency number if you need to:

- Report a crime that occurred earlier
- Make a complaint or report regarding an animal
- Simply ask a question

We are more than happy to assist you. All of the situations listed above can be addressed by calling the Henrico Police non-emergency number which is available 24/7.

## THINGS TO KEEP IN MIND

Emergency Communications Officers are required to ask the questions they ask to assist you.

- You may think they do not need to know the details, but all information helps responding officers arrive quickly and well prepared to address your emergency.
- Stay as calm as possible so we can get the information we need to send help quickly.
- Speak as clearly as possible.
- If your emergency is medical in nature., you will be given brief instructions about what to do to care for the patient until rescue units arrive.

## Does GPS pinpoint the caller?

- No. GPS is helpful but not precise. We still need you to tell us your exact location and what is going on.
- Technology is helpful, but it does not do all the work!
