Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	17
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

--	--

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>Thirteen (13) .random offender record files were selected for review for each month of the audited period. SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

COORDINATOR 1. The Sheriff's Office shall provide information, monitor, and counsel offenders who have sexually aggressive behavior. The Sheriff's Office shall identify offenders who may be at risk for victimization. Health care services will be available to offenders involved in a sexual contact. 2. The Henrico Sheriff's Office has a zero-tolerance policy for all forms of sexual abuse/assault and sexual harassment and will ensure compliance with legal provisions regarding such activity. This policy is not intended to govern incident(s) of sexual assault/abuse by an offender against an employee, contractor, visitor, volunteer, or any other individual who has business with the Henrico Sheriff's Office CFR§115.11.

Analysis/Reasoning

The Auditor reviewed policies and procedures, organizational chart, and interviewed staff and offenders to verify the facility's level of compliance with this standard. The facility's zero tolerance policy outlines prevention, detection and response approaches towards sexual abuse and sexual harassment. Prevention efforts include architectural design, environmental controls, supervision strategies, offender movement practices, accessible and non-accessible facility areas, education efforts, and staff training.

Detection efforts include around the clock supervision, unannounced supervisory security rounds, staff prohibited from alerting other staff of supervisory security rounds, not relinquishing care and custody of offenders, requirements of documenting observations, staff prohibited from visiting other posts, encouraging offenders and requiring staff to report knowledge or suspicion of sexual abuse or sexual misconduct, and allowing staff to accept third party reports of allegations.

Response efforts include maintaining multiple ways for offenders to privately report allegations or retaliation, notifications of allegations to other agencies, protection methods, retaliation monitoring, investigating all allegations, reporting criminal acts of sexual abuse and sexual harassment to local law enforcement, notifying victims of investigative findings, conducting incident reviews, disciplinary action for abusers, and employing a PREA Coordinator and PREA Compliance Manager.

The captain's³ position is currently vacant. The PREA Coordinator position is currently being held by the Lieutenant of Investigations. Interviews with the PREA Compliance Manager reveal she feels she has sufficient time and authority to manage the facility's PREA efforts. The PREA Compliance Manager responded quickly and efficiently to all communications and requests from the auditor both before and during the audit.

Interviews with offenders reveal the facility has accomplished a zero-tolerance culture towards sexual abuse and sexual harassment. All offenders interviewed were knowledgeable in the facility's PREA prevention, detection, and response efforts. Offenders felt confident in staff's ability to respond to allegations of sexual abuse and sexual harassment. All offenders felt safe in the facility.

Conclusion

HCSO maintains an appropriate policy and has successfully created a zero-tolerance culture. The Auditor determined the facility meets the requirements of this standard

	after a thorough review of policy and procedures, organizational chart, and interviewing staff and offenders.

VI. SUPERVISION AND MONITORING CFR §115.13 1.

The Sheriff's Office shall ensure that each facility it operates shall develop, document, and make its best effort to comply on a regular basis with a staffing plan that provides adequate levels of staffing, and where applicable, video monitoring, to protect offenders against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration: (1) Generally accepted detention and correctional practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility's physical plant (including "blind-spots" or areas where staff or offenders may be isolated; (6) The composition of the inmate population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors. 2. In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan. 3. Whenever necessary, but no less frequent than once each year, for each facility the agency operates, in consultation with the PREA Coordinator required by §115.11, the agency shall assess, determine, and document whether adjustments are needed to: (1) The staffing plan established pursuant to paragraph 1 this section; (2) The facility's development of video monitoring systems and other monitoring technologies and (3) The resources the facility has available to commit to ensure adherence to the staffing plan. 4. The Sheriff's Office shall implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced

rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practices shall be implemented for night shifts as well as day shifts. Staff members are prohibited from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

Analysis/Reasoning

The facility’s staffing plan provides adequate levels of staffing to protect offenders from sexual abuse. The facility’s cameras are strategically placed to assist in the prevention and detection of sexual abuse. The Auditor reviewed documentation submitted by the PREA Coordinator to the Jail Administrator notating her

review of the staffing plan. The document includes a consideration of all elements as required by PREA standard 115.13. During a tour of the facility the Auditor observed staff in all facility areas and observed camera placements. Since August 20, 2012, or last PREA audit, whichever is later, there were (634) average daily number of offenders. Since August 20, 2012, or last PREA audit, whichever is later, there were (634) average daily number of offenders on which the staffing plan was predicated.

Conclusion:

The Auditor concluded the facility has an adequate staffing plan to ensure the protection of offenders from sexual abuse. The staffing plan is reviewed in accordance with this standard. The Auditor reviewed policies, procedures, post audit, post audit review, Daily Duty Rosters, PREA Logbook, camera reports, interviewed staff and offenders and made observations to determine the facility meets the requirements of this standard.

Interviews with (13) targeted and (17) random offenders demonstrated a large percentage believed the search procedures to be conducted respectfully by staff. Offenders stated most female staff announce their presence when entering their dorms and the facility makes an announcement at the beginning of each shift over the intercom. Interviews with female Deputies demonstrated each had been trained in cross gender pat searches and the facility does not provide the option for females to strip search transgender offenders. The interview with the Jail Administrator demonstrated offenders are always searched by two Deputies.

HCSO Policy 2C-01

It is the policy of Henrico County Sheriff's Office that no male staff member will conduct cross gender searches of a female inmate.

B. CROSS-GENDER SEARCHES

Cross-gender viewing and search are prohibited except in exigent circumstances or when performed by medical practitioners. All cross-gender strip searches and cross gender visual body cavity searches shall be documented on an incident report that outlines the exigent circumstances. CFR§115.15 2. All offenders can shower and perform bodily functions and change clothing without nonmedical staff of the opposite gender viewing their breast, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. 3. The facility shall not search or physically examine a transgender or intersex detainee for the sole purpose of determining the detainee's genital status. If the detainee's genital status is unknown, it may be determined during conversations with the detainee, by reviewing medical records, or, if necessary, by learning that the information as part of a broader medical examination conducted in private by a medical practitioner. 4. The agency shall train all sworn staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex detainees, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

HCSO Security Checks and Inspections Security Checks and Inspections

Staff members of the opposite gender must announce their presence when entering an inmate housing area.

Analysis/Reasoning

There were (0) number of pat-down searches of female offenders that were conducted by male staff. There were (0) number of pat-down searches of female offenders conducted by male staff that did not involve exigent circumstance(s). One hundred (100%) of all security staff who received training on conducting cross-gender pat-down searches and searches of transgender and intersex offenders in a professional and respectful manner, consistent with security needs.

	<p>The HCSO does not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances. The HCSO conducts searches of transgender and intersex offenders, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.</p> <p>The HCSO has policies and procedures that enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures require staff of the opposite gender to announce their presence when entering an inmate housing unit. Policy and observations show that officers of the same gender as the offenders are assigned tower posts that are adjacent to restrooms and shower areas. Thus, offenders are not viewed by officers of the opposite gender while using the toilets and showers.</p> <p>Conclusion</p> <p>The HCSO does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Based upon the review and analysis of all the available evidence, the Auditor has determined that the agency is fully compliant with this standard.</p>

HCSO Policy 4D-22-8

The Sheriff's office will not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first response duties under §115.64, or the investigation of the inmate's allegation. The sheriff's office utilizes an interpretation service that is available 24 hours a day for assistance with any non-English speaking offenders. CFR§115.16

Analysis/Reasoning

HCSO ensures offenders with disabilities and who are limited English proficient have access to PREA information and programs. Henrico County Sheriff's Office has taken appropriate steps to ensure that offenders who are limited English proficient or disabled have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

The auditor used the language line that provides foreign language translation to the jail for one of the inmate interviews. PREA handouts and inmate handbooks are in English and Spanish. English and Spanish PREA posters are posted throughout the institution. Staff and offenders interviewed stated offenders are not used as interpreters when addressing sexual abuse and sexual harassment allegations. The Jail has a Telecommunication Device for Deaf People (TDD) available for offenders who are hearing impaired. For offenders with a mental disability, staff spends time to ensure they understand the PREA basics of definitions and reporting.

Conclusion

The Auditor conducted a thorough review of the agency's policies, procedures, Offender Handbook, Zero Tolerance for Sexual Abuse and Sexual Harassment handout, comprehensive educational video, interpretive services contracts, offender records, training records, conducted interviews with staff, offenders and made observations to determine the agency meets the requirements of this standard.

VII. HIRING AND PROMOTION DECISIONS CFR §115.17

1. The Sheriff's Office shall not hire or promote anyone who may have contact with offenders, and shall not enlist the services of any contractor who may have contact with offenders, who—

- a. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997);

- b. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or

- c. Has been civilly or administratively adjudicated to have engaged in the activity described in section (b.) of this section.

2. The Sheriff's Office shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with offenders.

3. Before hiring new employees who may have contact with offenders, the agency shall:

- a. Perform a criminal background records check; and

- b. Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

4. 115.17(d) The Sheriff's Office shall perform a criminal background record check before enlisting the services of any contractor who may have contact with offenders.

5. 115.17(e) The Sheriff's Office will conduct criminal background records checks at least every five years of current employees and annually for contractors that have contact with offenders.

6. The Sheriff's Office will ask all applicants and employees who may have contact with offenders directly about previous misconduct described in paragraph (1) of this

section in written applications or interviews for hiring or promotions and as a part of the review of current employees. The Sheriff's Office requires that instances of misconduct by employees be reported to Internal Affairs immediately— Material omissions regarding such misconduct, or provisions of materially false information, shall be grounds for termination.

7. Unless prohibited by law, the Sheriff's Office will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

Analysis/Reasoning

The Auditor reviewed records which show current staff have received a criminal history background check. The Auditor randomly selected current staff members and specialized staff. The files reveal all have had a criminal background check. HCSO does not hire or promote anyone who may have contact with offenders, and does not enlist the services of any contractor who may have contact with offenders, who has engaged in sexual abuse in any criminal justice facility, has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described above.

HCSO considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with offenders. HCSO performs a criminal background record check before enlisting the services of any contractor who may have contact with offenders and performs records check at least every five years of current employees and contractors who may have contact with offenders.

Conclusion:

In the past 12 months, there was (7) number of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with offenders. In the past 12 months, there were (110) number of persons hired who may have contact with offenders who have had criminal background record checks.

The Auditor concluded the HCSO is performing appropriate practices to identify previous acts of sexual misconduct prior to hiring staff and enlisting the services of contractors, and before promoting staff members. The Auditor conducted a thorough review of the agency's policies, procedures, employee records, contractor records, Background Investigation Questionnaire, Confidential Summary Background Investigation Report, Employment Application, Employee Self-Assessment, Criminal History Background Check Tracking, and interviewed staff and contractors to determine the agency meets the requirements of this standard.

1. To the extent the Sheriff's Office is responsible for investigating allegations of sexual abuse, the Sheriff's Office shall follow uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

2. The Sheriff's Office shall offer all victims of sexual abuse access to forensic medical examinations at an outside facility, without financial cost, where evidentiary or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The Sheriff's Office shall document its efforts to provide SAFEs or SANEs. The Sheriff's Office has a memorandum of understanding with St. Mary's Hospital for these services. The Sheriff's Office will contact St. Mary's Hospital if the allegation of sexual abuse is outside of 72 hours and within 120 hours of the alleged abuse for direction of the Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) if the victim needs to be transported to St. Mary's for a forensic examination.

3. The Sheriff's Office shall attempt to make available to the victim a victim advocate from a rape crisis center. The Sheriff's Office has an MOU with the YWCA of Richmond for victim advocate services. If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services from rape crisis centers. For the purpose standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as services specified in 42 U.S.C. 14043g(b)(2)(C), to victims of sexual assault of all ages.

4. As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

h. The Sheriff can refer allegations of sexual abuse or sexual harassment to an outside agency with the legal authority to conduct criminal investigations when the allegation involves potentially criminal activity. CFR§115.22

Analysis/Reasoning

The Auditor reviewed the facility’s website. The facility has included its procedures for referring criminal allegations of sexual harassment and sexual abuse to the Henrico County Sheriff’s Office on the HCSO website. The website outlines the responsibilities of the HCSO during administrative investigations and criminal investigations of sexual harassment and sexual abuse.

During the past 12 months, there were (38) allegations of sexual assault and sexual harassment that were received. The facility reported zero (21) allegations for administrative investigation and (0) criminal investigation during the past 12 months.

The investigator informed the Auditor she contacts the sheriff’s office to make referrals when the evidence supports criminal prosecution. The investigator stated she investigates all allegations of sexual abuse and sexual harassment.

Conclusion

The Auditor determined the facility meets the requirements of this standard after reviewing policy and procedures, facility website, investigative files and interviewing the facility investigator.

- (13) 115.31 (c) All current employees who have not received such training shall be trained within one year of the effective date of the PREA standards.

Analysis/Reasoning

A review of the staff training documentation including staff training rosters, and staff interviews confirmed all sworn staff receives PREA training during basic academy training and refresher PREA training throughout the year during briefing. All civilian employees receive PREA training during orientation in addition to receiving refresher PREA training throughout the year.

All employees have to acknowledge that they understand the training they received. Upon review of the lesson plan for Henrico County Sheriff's Office, it was confirmed the training provided to staff included zero-tolerance policy for sexual abuse and sexual harassment; How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; Offenders' right to be free from sexual abuse and sexual harassment; The right of offenders and employees to

be free from retaliation for reporting sexual abuse and sexual harassment; The dynamics of sexual abuse and sexual harassment in confinement; The common reactions of sexual abuse and sexual harassment victims; How to detect and respond to signs of threatened and actual sexual abuse; How to avoid inappropriate relationships with offenders; How to communicate effectively and professionally with offenders, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming offenders: and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

Staff interviews confirmed staff receive continuous training, their comprehension of the PREA training and their obligation to report any allegation of the sexual abuse and/or sexual harassment. At the facility, it was evident through documentation, interviews, and observation of the day-to-day operations that the staff is trained continually about the PREA standards during shift briefings and the completion of various on-line training. Analysis/Reasoning

The Auditor reviewed training documents which show contractors have been trained on their responsibilities under the jail's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. Each volunteer and contractor are issued a handbook which includes the facility's zero tolerance policy, reporting mechanisms, documenting allegations, appropriate response as a volunteer or contractor and disciplinary policies. All volunteers and contractors sign a statement denoting, "By signing this I acknowledge that I have completed and understand the training and have also read and understand HCSO Policy 4D-22-8 on Prison Rape

the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

The Sheriff's office will not rely on inmate interpreters, inmate readers, or other types of offender assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first response duties under §115.64, or the investigation of the inmate's allegation. The sheriff's office utilizes an interpretation service that is available 24 hours a day for assistance with any non-English speaking inmates. CFR§115.16

Analysis/Reasoning

The Auditor reviewed documentation provided by the facility which shows offenders had received information during the booking process and comprehensive education within 30 days of arriving at the facility. The Auditor interviewed staff members who work in the intake section. Staff informed the Auditor each offender receives an informational sheet when arriving in intake. The booking officer discusses the PREA informational sheet with each offender then receives the offender's signature on the sheet. Booking Officers informed they play the PREA comprehensive educational video during the booking process.

There were (12665) number of offenders admitted during past 12 months who were given this information at intake. There were (1952) number of those offenders during the past 12 months (whose length of stay in the facility was for 30 days or more) who received comprehensive education on their rights to be free from both sexual abuse/harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents within 30 days of intake.

The Auditor conducted interviews with offenders. Each offender was asked questions related to the educational material provided by the facility. Each offender was able to articulate answers to the Auditor's questions which revealed they had received PREA information and education. All offenders knew how to report allegations of sexual assault, sexual harassment and/or retaliation for reporting such incidents. The offender population was fully aware of the facility's zero tolerance policy towards sexual abuse and sexual harassment. Offenders had been made aware of their right to be free from sexual abuse, sexual harassment and retaliation, and the facility's policies for responding to such incidents.

Conclusion

The Auditor determined the facility meets the requirements of this standard.

4. How and to whom to report allegations or suspicions of sexual abuse.

b. The agency shall maintain documentation that medical and mental health practitioners have received the training referenced in this policy from the agency or elsewhere.

Analysis/ Reasoning

HCSO ensures that all full and part-time medical and mental health care practitioners who work regularly have been trained in how to: detect and assess signs of sexual abuse and sexual harassment; preserve physical evidence of sexual abuse; respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

(i) The agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates.

Analysis/Reasoning

The Auditor reviewed the Custody Level Criterion utilized during the intake screening. The intake screening occurs in an office in a private setting away from other offenders. All questions are asked by the Classification Officer. The Custody Level Criterion includes the following considerations listed above.

There were (3686) number of offenders entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) who were screened for risk of sexual victimization or risk of sexually abusing other offenders within 72 hours of their entry into the facility.

There were (1952) number of offenders entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 30 days or more) who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake.

Conclusion

The Auditor determined the facility is appropriately screening offenders for their risk of victimization and abusiveness. The Auditor determined the facility meets the requirements of this standard.

for the purpose of protecting such inmates.
 7. programming or other out-of-cell opportunities in order to comply with this provision. CFR§115.15

Analysis/Reasoning

The HCSO policy stipulates information from the objective risk screening instrument will be utilized to determine housing, bed, work, education, and programming assignments to prevent offenders who are determined at high risk of sexual victimization from being placed with those at risk of being sexually abusive. Jail staff are required to make individualized determinations to ensure the safety of each offender. Individualized determinations must also be made for transgender and intersex offenders and their own views with respect to their own safety must be taken into consideration when determining housing, bed, educational and programming assignments.

Policy requires staff to consider transgender and intersex assignments to male or female living units on a case-by-case basis based on the health and safety of the offender and the security needs of the HCSO. The facility policy stipulates transgender and intersex offenders can shower separately from other offenders. The HCSO prohibits placing lesbian, gay, bisexual, transgender, or intersex offenders in dedicated units based solely on their identification or status unless in conjunction with a consent decree, legal settlement, or legal judgement for the purpose of protecting such offender.

The Auditor conducted a thorough tour of the HCSO. During the tour all offender living areas were visited. Each living unit allows transgender offenders the opportunity to shower separately from other offenders as each shower in the facility has a shower curtain. The Auditor conducted interviews with randomly selected offenders.

Conclusion

The Auditor conducted a thorough review of the facility’s policy and procedures, classification records, and conducted interviews with staff and offenders and determined that the facility meets the requirements of this standard.

1. Inmates at high risk of sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.
2. Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document:
 - a. The opportunities that have been limited;
 - b. The duration of the limitation; and
 - c. The reasons for such limitations.
3. The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.
4. If an involuntary segregated housing assignment is made pursuant to paragraph (1) of this section, the facility shall clearly document:
 - a. The basis for the facility's concern for the inmate's safety; and
 - b. The reason why no alternative means of separation can be arranged.
5. Every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.

Analysis/Reasoning

Offenders at high risk for sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. Offenders placed in segregated housing for this purpose have access to programs, privileges, education, and work opportunities to the extent possible. If HCSO restricts access to programs, privileges, education, or

work opportunities, HCSO documents the opportunities that have been limited, the duration of the limitation; and the reasons for such limitations.

HCSO assigns such offenders to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment are not ordinarily exceeding a period of 30 days. If involuntary segregated housing assignment is made HCSO clearly documents the basis for HCSO's concern for the offender's safety; and the reason why no alternative means of separation can be arranged. Every 30 days a review is performed to determine whether there is a continuing need for separation from the general population.

The number of offenders at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment (0). The number of offenders at risk of sexual victimization who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement (0). From a review of case files of offenders at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months, the number of case files that include BOTH (a) a statement of the basis for facility's concern for the offender's safety, and (b) the reason or reasons why alternative means of separation could not be arranged (0).

Conclusion

The Auditor conducted a thorough review of the facility's policy and procedures, classification records, and conducted interviews with staff and offenders and determined that the facility meets the requirements of this standard.

The offenders have a hotline they can call that is forwarded directly to the YWCA Sexual Assault Response Program. Based on interviews with random staff, offenders, and review of the Memorandum of Understanding with the YWCA Sexual Assault Response Program.

HCSO provides multiple internal ways for offenders to privately report sexual abuse and sexual harassment, retaliation by other offenders or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Inmate request forms have how to report sexual abuse and the hotline number posted in close proximity to phones in the inmate housing units as a constant reminder.

Each staff member informed the Auditor they are required to immediately report. When asked who they share the information with staff informed they report to their supervisor and are not allowed to discuss the incident details with anyone other than investigators, classification, and medical staff.

The Auditor interviewed medical and mental health practitioners. Each was asked if they report sexual abuse to anyone. The contract personnel stated they inform a security supervisor when an offender report suffering sexual abuse in a confinement facility. The Auditor asked who they inform if the victim is a youthful offender. Each stated they are to mandatorily report victimization of youthful offenders under mandatory reporting laws.

The Auditor discussed informed consent, limitations of confidentiality, and duty to report with medical and mental health practitioners. Medical and mental health practitioners are aware of the requirement to inform offenders of their limits of confidentiality and their duty to report at the initiation of services. Offenders who Reported Sexual Abuse

The interview with the Investigator demonstrated the facility completes investigations for every allegation of sexual harassment and sexual abuse. The Investigator stated she reads through statements and begins a preliminary investigation to determine if the allegation meets PREA definition. When the allegation is determined to meet PREA criteria, the investigator interviews the victim, provides the victim medical and mental health options and information on retaliation monitoring. Next the investigator reviews policies and procedures, requests statements from anyone the victim states were involved and or in the area during the allegation, collects any evidence and begins documentation of the investigation in the system. The Investigator stated she would contact the PREA Compliance Manager, Law Enforcement, and the CDI if the evidence collected meets the criteria of a criminal investigation.

HCSO Policy 4D-22-8

XIX. CRIMINAL AND ADMINISTRATIVE AGENCY INVESTIGATIONS CFR §115.71

1. When the Sheriff's Office conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly and objectively for all allegations, including third-party and anonymous reports.
2. Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.
3. When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with the County Attorney's Office as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.
4. The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff.
5. Administrative Investigations:
 - a. Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and
 - b. Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.
6. Criminal investigations shall be documented in a written report that contains a thorough description of physical testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.
 - a. Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.
 - b. The agency shall retain all written reports in reference to sexual abuse and/or harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

7. The departure of the alleged abuser or victim from the employment or control of the agency shall not provide a basis for terminating the investigation.

Analysis/Reasoning

The HCSO conducts investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Where sexual abuse is alleged, HCSO uses investigators who have received special training in sexual abuse investigations.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

When the quality of evidence appears to support criminal prosecution, HCSO conducts compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. All criminal prosecution cases are referred to County Attorney’s Office.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and is not determined by the person's status as offender or staff. No agency requires an offender who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appear to be criminal are referred for prosecution to the County Attorney’s Office. HCSO retains all written reports for as long as the alleged abuser is incarcerated or employed by HCSO plus five years. The departure of the alleged abuser or victim from the employment or control of HCSO or agency does not provide a basis for terminating an investigation.

Conclusion

The Auditor was able to conclude the facility Investigator is conducting appropriate investigations of sexual abuse and sexual harassment. The Investigator has received appropriate training and is aware of the requirements of this standard. The Auditor determined the facility meets the requirements of this standard.

Following an investigation into an offender's allegation that they suffered sexual abuse in an agency facility, HCSO informs the offender as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. If HCSO did not conduct the investigation, it will request the relevant information from the investigative agency to inform the offender.

C. Disciplinary Sanctions for Inmates CFR§115.78

1. Inmate shall be subject to disciplinary sanctions pursuant to the formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse.

2. The disciplinary process shall consider whether an inmate’s mental disabilities or mental

illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. Sanctions shall be commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories.

CFR§115.78 (b)

3. The agency may discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact. CFR§115.78 (e)

4. An agency may, in its discretion, prohibit all sexual activity between inmates and may discipline inmates for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.

CFR§115.78 (g)

Analysis/Reasoning

In the past 12 months, there was (8) number of administrative findings of offender-on-offender sexual abuse that have occurred at the facility. In the past 12 months, there were (0) number of criminal findings of guilt for offender-on-offender sexual abuse that have occurred at the facility.

The facility reported no incidents in which an offender had been disciplined for filing a report of sexual abuse or sexual harassment. The Auditor conducted formal interviews with medical and mental health practitioners. The Auditor was informed counseling, and other interventions are offered in an attempt to address and correct underlying reasons or motivations for sexual abuse.

The Auditor was informed that an offender’s participation or non-participation in such interventions do not hinder the offenders’ ability to attend programming or other benefits. The facilities disciplinary policies, procedures and practices are appropriate to ensure proper disciplinary measures against an offender.

Conclusion

The Auditor reviewed policy and procedures, interviewed multiple staff and an offender, and determined the facility meets the requirements of this standard.

Interviews with medical and mental health staff demonstrated disclosure reports are automatically flagged and forwarded to the facility staff. Medical staff stated they would see the offender on the day of the referral and Mental Health staff stated they screen mental health referrals every three days to ensure offenders are seen as quickly as possible.

HCSO Policy 4D-22-8

XIV. MEDICAL AND MENTAL HEALTH SCREENINGS CFR§115.81

1. If the screening pursuant to §115.41 indicates that an inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening.
2. If the screening pursuant to §115.41 indicates that an inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening.
3. If the screening pursuant to §115.41 indicates that an inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.
4. Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, work, education and program assignments, or as otherwise required by Federal, State or local law.
5. Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18.

Analysis/Reasoning

In the past 12 months, 100% of offenders who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner. HCSO Policy 4D-22-8 requires all offenders identified as high risk with a history of sexually assaultive behavior or sexual victimization be assessed by a mental health or other qualified professional within 14 days.

Additionally, per Henrico County Sheriff's Office policy, the facility shall provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies. The facility shall enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible. The facility shall inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. The Watch Commander will place the inmate on special watch until evaluated by mental health staff. Mental Health staff shall provide a mental health evaluation to assess the need for crisis intervention counseling and long-term follow-up.

Interviews with the medical and mental health staff confirmed that offender victims of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services. The medical and mental health staff indicated that services begin immediately upon notification of a victim of sexual abuse from the shift supervisor. The shift supervisor will ensure that the offender is immediately escorted to medical for an evaluation and/or transport to St. Mary's Hospital for forensic examination.

Also, the medical staff's interview indicated the medical provider would prepare a consultation and refer the inmate to St. Mary's Hospital for assessment of the patient and determination whether a forensic evaluation and rape kit is required and to begin any sexually transmitted infection prophylaxis treatment/services and orders for follow-up services. Upon completion of the offender's physical examination by the local hospital and upon return to the jail, a mental health evaluation will be performed to determine the potential for suicidal ideation and/or the need for more in-depth
