

I CHOOSE TO REUSE **KEEP HENRICO BEAUTIFUL**

Carry A Reusable Bag

- It requires about 12 million barrels of oil to manufacture the approximate 100 billion plastic bags Americans use in a year.

Say "No" To Single-Use Water Bottles

- In addition to conserving the resources it takes to bottle and ship water, using tap water is much more cost effective. A typical 20oz bottle of water costs about \$2.00. For that same \$2.00 you can get 378 gallons of Henrico County water.

Carry Reusable Cutlery For On-The-Go Meals

- Not only is plastic cutlery made from petrochemicals, it is also impossible to recycle.

Choose Bubbles Over Balloons For Celebrations

- It is now illegal in Virginia to intentionally release balloons which end up as litter.

Utilize The Many Thrift Stores in Henrico

- About 85% of our clothing in the US ends up in landfills or is incinerated.
