# NO SEW T-SHIRT TOTE BAG

1. Take any t-shirt and lay flat, you can fold in half matching up the sleeves or cut each sleeve separately.
2. Cut off sleeve of the t-shirt at the seam
3. Lay shirt flat and cut the neck opening wider, this will make the opening of the bag.
4. Lay the shirt flat and cut strips from the bottom of the shirt about  $\frac{3}{4}$  inch wide to about 1 inch long.
5. Tie the bottom strip to the top strip, all across the bottom, this will leave little holes in the bottom.
6. Next starting at one side tie the top strip to the bottom strip just to the right of the top strip, this will take care of the holes.
7. Reinforce the side strips by tying them another time.
8. You may also add a piece of cardboard to the bottom to also reinforce the bottom.

Embellishments are optional - this is your creation so feel free to increase the sizes of the strips as well! Have Fun!!!
