

ORIGAMI OLYMPIC RINGS

<https://www.activityvillage.co.uk/origami-olympic-rings>

Time Required: 20 minutes

Prep Required: None

Space (s) Needed: Indoor

Materials:

6- inch square origami paper (or cut your own squares from standard paper) in red, green, black, blue and yellow.

Instructions:

Step 1: Take your red piece of paper. With your paper colored side down, fold your square horizontally and then vertically to crease.

Step 2: Cut carefully along one of the crease lines to make two rectangles.

Step 3: You now need to fold each rectangle into thirds so that you end up with thin strips.

Step 4: Carefully fold the two ends down and in at a 45-degree angle, creasing well. Repeat with the second rectangle.

Step 5: Slide the two parts of the ring together, pushing the ends of one inside the other. Use a glue stick to make the joins permanent.

Step 6: Repeat steps 1-4 with the green paper. When you reach step 5, thread one of the ring parts through the red ring before joining the ends of the green ring so they are linked. Use a glue stick to stick the two rings together so they don't move about.
