### Project Overview

The Ridge Road Sidewalk Phase 2 project includes approximately 2,600 feet of improvements between N. Parham Road and just east of Green Ridge Road. Between N. Parham Road and Glendale Drive, the improvements include installation of curb and gutter and a 5-foot-wide concrete sidewalk on the north side of Ridge Road. From Glendale Drive to the end of the project the improvements include installation of curb and gutter and a 10-foot-wide asphalt shared use path on the north side of Ridge Road. A mini-round-about is proposed at the Glendale Drive intersection which will be constructed prior to the sidewalk and shared use path. The project has been designed to tie to the existing sidewalks near the intersections of N. Parham Road and on the south side of Ridge Road east of Green Ridge Road and provide a connectivity to the shared use path for the existing westbound bike lane. A pedestrian crossing at Cokesburg Lane is also being reviewed and considered with this project.

### Location:

Ridge Road from N. Parham Road to Greene Ridge Road

### Purpose:

To provide enhanced safety for all travel modes and improve multimodal connectivity along Ridge Road. The project provides a connection from the existing sidewalk and bike lanes along Ridge Road just east of Greene Ridge Road to the existing sidewalk along N. Parham Road.
