

The Pick Me Up **NEWSLETTER**

General News

KHB is thrilled to welcome our newest team member, Crystal! She will be hard at work sowing seeds, tending our garden, and other activities to help us keep Henrico beautiful.

Education Corner

KHB Staff went on an adventure partnering with Quioccasin Middle School to take 6th graders on a water quality field trip. Students did visual assessment and chemical testing of the lake at Deep Run Park to determine if it could support aquatic life. They then visited the water treatment center on Three Chopt Road to see how the county transforms local surface water into safe drinking water.

Because We Care

Did you know that we have thirty roads, schools, parks, and communities adopted through our program? We love that so many people care about keeping our community clean!

Monthly Safety Reminder

Be mindful of tall grasses on roadsides and at the edges of parks and schools; they could be housing ticks! Consider bringing bug spray to your pickups to protect yourself from hungry little critters.

Coming Up

*Links are active in the attached PDF

- Jun 7th 9-1pm- Spring Plant Sale and Pollinator Festival, Deep Run Park and Recreation Center
- Sep 13th- James River Cleanup, Osborne Park and Boat Landing- It's time to start preparing for the clean up! Every year, we try to find more people with boats to help us clean up the James. If you know someone with a boat, send them our way!
- Fall 2025 - Land Lovers Series- After summer break, the series will resume with exciting subjects like Native Plants for Sun and Shade, Native Fruit Trees, and Owls with AWARE.
