

## Updates to the Ballot Tracking Tool

We are excited to share some updates to the Ballot Tracking Tool, based on feedback from voters, and partners like yourself. We believe these changes will help voters track their ballots with even greater confidence this election. Our tool will continue to seamlessly share status updates based on both USPS scans and Office/Disposition data, and the dashboard and admin user experience will be unaffected.

### STATUS RESULTS

Clearer status pages should cut down on voter confusion and calls to your office.

**Returned to Sender**  
Last updated: Thursday, September 1st, 2022

The post office was unable to deliver your ballot for some reason. To learn more please contact the election office.
