The Board of Supervisors accepted the following proffered conditions which further regulate the above described property in addition to all applicable provisions of Chapter 22, Code of Henrico (Zoning Ordinance). They are as follows:

1. Development of each individual site on the Property shall be subject to Plan of Development review and approval by the Planning Commission.
2. A twenty (20) foot landscaped or natural buffer area will be maintained, except to the extent necessary for utility easements, roads, driveways or other purposes required by the Planning Commission at the time of Plan of Development review, or by any other governmental body, agency, commission, board, department or official thereof, along the property boundaries not currently owned by Innsbrook North Associates. Diseased or dead plant growth may be removed, and additional plantings may be added. Where the placement of utility easements within a buffer area results in the inability of an owner to provide adequate screening within such buffer area, screening shall be provided adjacent to the buffer area, to properly screen development on a parcel from adjacent properties.
3. Parking lot lighting standards shall not exceed twenty-five (25) feet in height and shall be at a lower height if required by the Planning Commission at the time of Plan of Development approval. Lighting in parking lots shall be of low intensity, shall be positioned in such a manner as to minimize the impact of such lighting on the adjacent residentially zoned areas and be of such type as required by the Planning Commission.
4. Any Plans of Development which are done on all or part of the parcel shown on the attached map (see case file) shall be subject to the following Site Coverage Ratios:
